

## **Client Testimonial**

"Evi and Orshi were a dream to work with and helped us find the most amazing nanny for our infant daughter. Undertaking the nanny search on our own was daunting and difficult. SF Nannies took the time to get to know our family and understand our childcare needs. They sent us amazing candidates and were there to support us through every step of the process. They were always patient with my questions and very prompt in their responses (even responding evenings and weekends). From interview tips, reference calls, background checks, and advice on how to best structure our trial days, they did it all. For any family embarking on their caregiver search, I would highly recommend SF Nannies."
